

Communication with Spirits and Angels

1 Samuel 28

Many times in the Word the Lord sent people messages using angels, but when Saul received a message from Samuel it was wrong. Why was this? (Hint: Saul tried to communicate with the spiritual world, which was forbidden! If the Lord had chosen to send Samuel to him with a message it would have been fine.)

Think of seven times in the Word that people were allowed to have communication with the Spiritual World by talking to an angel. Tell about who saw the angel and what the angel told them.
