

David's Life and Kingship

1 Samuel 16-2 Samuel 24

Play this game alone or with a partner. Start by completing the game board.

1. If there is something good on a square color it green.
2. If there is something bad on a square color it red.
3. Color all the squares that are still blank yellow.

Put a marker on start. Roll a die and move as many spaces as you roll. If you land on a green square, roll again and move ahead the number of spaces you rolled. If you land on a red square, roll again and move backwards the number of spaces you rolled. How many rolls did it take to finish the game? Did David make good choices during the first or the second half of the game? What does this tell you about David's choices?
