

Compare the Life of the Lord with the Life of Samson

Think about the story of Samson as a prophecy of the Lord's life on earth. While there are many differences, there are some striking similarities. One example is that an angel announced that Samson would be born, and an angel appeared to Mary and told her that she would give birth to the Lord. Another is that both were betrayed. List similar events in the middle of this Venn diagram—where the circles intersect. You can list other events on the left or right side, depending on who experienced them.
