

Focus on Manners

Good manners help everyone around you feel *comfortable*. Use the T chart below (or make your own) to help you think about the effect that manners have on other people. On the left side, write a “rule of conduct” or manner. Now try to think of why that rule is important. How is it an expression of charity?

For example:

Don't whisper when other people are around because...other people might feel left out. Or they might be afraid that you are saying mean things about them.

Polite Behavior

Why It Is Important
