

## FOR REFLECTION

### Making a “Sanctuary for the Lord” in Your Home

Physically, a sanctuary is a building. Emotionally, it is a place that protects us. Spiritually, it is a state of mind (and spiritual development through regeneration) in which we can communicate with the Lord.

#### Action Items:

- ❖ Set up a place in your home, where you can communicate with the Lord, reading His Word, reflecting on His teachings, and praying to Him. This may be a worship center with a repository or special stand for the Word.
- ❖ Then set aside a time where you go to the Word, seek to hear what the Lord has to say, and be willing to be led by Him. This is like the Lord speaking to Moses above the mercy seat over the ark, between the cherubim.

You may find that this place becomes a sanctuary for you, where you can center your life on the Lord and gain a new perspective on whatever challenges may come your way.
