

# A Joyful Bride to cut and color

1. Color the bride and her bouquet as you wish.
2. Carefully cut out the bride, including along the tops of her shoulders.
3. Attach the two straight edges of the bride's skirt together with tape so she can stand up.

4. If you wish, fold the bride's arms down so she can hold her bouquet.
5. Cut out the bouquet. You can either slide it over the bride's hands or tape it on.
