

Making Flower Garlands

Little children in heaven are delighted to wear garlands of flowers.

Use these pictures to help you make garlands for your children to enjoy.

Materials:

dandelions, violets, daisies, or other flowers
sharp knife (to cut slits in the stems)

Procedure:

1. Cut a slit near the end of the flower stem. Insert another flower stem through the slit (as pictured below).
2. Alternatively, if the stems are thin and flexible, like violets, you can tie the stems together (as pictured above).
3. Continue until the chain is long enough to wear on the child's head or around the neck.
