## Numbers in the Word

When we read about the lampstand, we find a number that is found many times in the Word-the number 7!

1. Make a list of numbers that are given (or that you notice) in the description of the Tabernacle. (One ark, two cherubim, two tablets of stone, etc.)
2. Make a picture illustration one of the numbers between one and twelve.
3. Optional: Make a book with illustrations for numbers one through twelve.

| Number | Item |
