

Picture Angels Nearby

*Directly after birth angels from the heaven of innocence are with children
and in the succeeding age angels from the heaven of the tranquility of peace....
(Arcana Coelestia 2303)*

The Lord is our heavenly Father and tenderly cares for us all. One of the ways He protects us is by having angels with us all the time. Young children have the very best angels with them. Make a picture of two angels taking care of you.

Suggested Materials

white or light colored paper
colored pencils, colored markers or crayons
optional: photograph of child, scissors, glitter and glue, metallic markers, *etc.*

Procedure

1. Draw a picture of yourself in the center of a piece of paper. If you prefer, you could use a photograph instead.

Note: You may want to turn the paper so that it is wider than it is long to make it easy to show two angels beside you.

2. Now draw a beautiful angel on each side of you.

Note: We have provided angels that you can cut out if you prefer to use these instead of drawing your own. Just choose any 2 of the angels to cut out and glue on the page beside you.

3. You may want to use glitter or special metallic markers to decorate the clothing worn by the angels.
