

PILLAR OF SMOKE AND FIRE

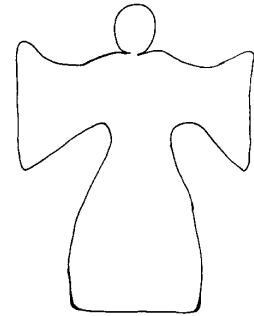

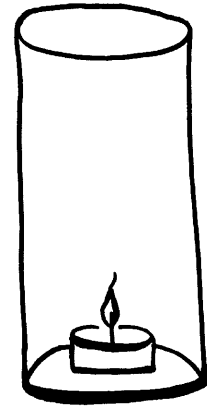

Exodus 13, 14

MATERIALS NEEDED

1 sheet red cellophane
1 sheet yellow cellophane
8 cotton balls
Glue or tape
Glass and Candle

PROCEDURE:

1. Get a tall clear drinking glass and put a short candle in it (tea lights work well).
2. Cut cellophane into flame-shaped angels to represent the choir of angels (see examples for shape ideas).
3. Tape or glue the angels to the outside of the glass.
4. Tear apart cotton balls and glue over flame-shaped angels.
5. At night (or in a dark room), turn out the lights, and light the candle to see the pillar of fire. During the day this appears as the pillar of smoke.

You could display this project for worship.

Feel free to use these angel patterns – or make your own!
