

Design a Home for a King

2 Samuel 5

In 2 Samuel 5 David built a home. It was a sign that he was a well established king. His house must have been very large to fit his big family.

In the space below sketch a home for a king. It can be a home like David might have had, or a king in a different time in history might have lived in. Choose whether to draw a floor plan, or draw a picture of what it would look like from the outside.

A large, empty rectangular box with a black border, intended for a student to draw a sketch of a home for a king. The box occupies the majority of the page below the instructions.
