

## Protect What Is Good

*“Cherubs” symbolize providence, guarding against access to the Lord or to heaven except by those governed by the good of love, and also guarding against any harm being done to the good from the Lord which is present in heaven and with a person.*

*(see Arcana Coelestia 9509:3)*

Try to be aware of the good in others and in yourself. This good is from the Lord—a gift that enriches our lives. Look for it and protect it.

Write about the good that you see in others. Are there ways that you can help protect it? Reflect on the good that may be with you from the Lord. How can you protect it?
