

Springtime—A Perfect Balance of Heat and Light

What would happen if we had light but no heat from the sun?

What if we had heat but no light?

Is there a season of the year in which the sun provides less heat and light where you live or is it pretty much the same all year?

What is your favorite season? Is your answer influenced by the amount of heat and light the sun provides at this time of year?

The Heavenly Doctrine tells us that it is always springtime in heaven. Think about what springtime is like and the spiritual meaning of heat and light. Then suggest some reasons why it is always spring in heaven.
