

Two Great Commandments Mobile

Matthew 22:37-38

Choose whether to make a simple mobile, shown on the left, or the stand-up display on the right. Both projects have an outline of two tablets of stone to represent the Ten Commandments. Why is this? The Ten Commandments help us understand how to obey the Two Great Commandments. The first table of stone stated the commandments that relate to loving the Lord. The second table of stone gave commandments about loving the neighbor.

To Make the Mobile

1. Make the outline of the two tablets as shown and cut them out. (Try to use stiff paper such as poster board or cover stock.)
2. Make 2 rectangles out of stiff paper.
3. Write the first great commandment on one rectangle.
4. Write the second great commandment on the other.
5. Use tape to attach the pieces to a long piece of yarn or string
6. Now hang up your mobile for display.

To Make the Standing Display

1. Make the outline of the two tablets on stiff paper such as cover stock.
2. Write the first of the two great commandments on left tablet.
3. Write the second great commandment on the right.
4. Fold the tablets toward each other so that they can stand up for display.
